

G5 Premier

Available
second half
of 2023[^]

Same system. Improved functionality.

Future-proof your drive-thru communications system with G5 headsets. G5 Premier headsets are currently in full development and will be available for purchase in the second half of 2023. Backwards compatible with existing G5 headset systems, QSRs can access new functionality without requiring a completely new system*.

G5 Premier headset features

Backwards Compatible

Invest in G5 technology now with the confidence knowing G5 Premier headsets are backwards compatible to current G5 systems, preserving your technology investment.

Assisted Order Modes

AI and call centre compatibility ~ means stores facing labour shortages can receive assistance taking customer orders in drive-thru lanes. The G5 Premier headset features remote connection for audio streaming and messaging from the lanes for an optimum staff and guest experience.

Improved voice capture

Featuring a new digital microphone, lane interface and wideband digital the G5 headset delivers crystal clear audio.

Cloud-based accessibility

A cloud connection enables scalable, remote hardware management - QSR operators and support teams will be able to adjust in-store equipment, configurations, monitor health and make changes as required.
